Your Heart! Does it Palpitate?

The component parts of Milburn's
Heart and Nerve Pills are indicated to
do away with palpitation and other
heart weaknesses and thus strengthen
both heart and nerves.
Mrs. F. X. Gauthier, Tilbury, Ont.,
writes: "During 25 years past I was
greatly troubled with palpitation of the
heart, and sometimes so much so that
I could not sleep. I would die at
any moment, being so much weakened
that I could not do any of my usual
duties, which would last sometimes up to three
hours. I had the doctor who kept me
telling his medicine to overcome the
disease, but to no effect. There was
nothing to do at all for the doctor."

"I was young and a friend advised me to
use Milburn's Heart and Nerve Pills.
I bought a box of these pills and as it
was a box of 100 pills I took one every
four hours, and in 10 days I was
completely cured. I am now a healthy
woman and I can do all my usual
duties. I am now 45 years of age and
I am as young as I was when I was
25 years of age."

SILAGE FOR FAT-
TENING STEERS

Beef cattle feeders of Western Can-
ada will be interested in an experi-
ment that is being conducted by A.
A. Dowell and G. L. Plack, Depart-
ment of Animal Husbandry of the
University of Alberta, to determine
the comparative feeding value of oat
and pea silage and sunflower silage,
for fattening two-year-old steers.
The objects of this test are—first,
to determine the possibility of profit-
ably converting the cheap feeds of
this country into marketable beef,
rather than attempting to ship both
the feed and the cattle to other parts
of Canada or to other countries for
the finishing process; second, to com-
pare a full feed of silage and grain
with a full feed of prairie hay and
grain; third, to find out which of the
silage crops common to this section
can be most profitably used for this
purpose; fourth, to compare a light,
medium and heavy grain ration with
each silage under consideration, and
fifth to determine the type of steer
that can be most profitably fed.

Sixty two-year-old steers were pur-
chased for this purpose, the latter part
of October, 1920. Twenty of these
would be classed as poor type feeders,
twenty as medium quality and the
balance were considered good type
feeders. They were given a prolif-
icary feeding of about three weeks on
out hay, commonly called oat green
feed, and then divided into ten lots,
with two good steers, type medium
and two poor type feeders in each lot.

The feeding experiment proper
began on November 17th, 1920, and the
lot was to market early in April.
Every steer in the lot is being fed
a full feed of insect meal once daily.
Each lot is fed from the same grain
silage, which consists of ground hay
and two parts and ground oats one
part. They are fed twice daily.

Lot one receives all the sunflower
silage they will clean up and a full
feed of grain; lot two a full feed of
sunflower silage and 4 1/2 bushels of grain
a lot one and lot three a full feed of
oat silage and 4 1/2 bushels of grain
a lot one. In addition to this, lots
1, 2 and 3 are fed prairie hay—the
amount being regulated by the lot
consuming the least.

Lots four, five and six are allowed
all the oat and pea silage they will
clean up, with prairie hay regulated
as mentioned in the sunflower group.
Lot four receives a full feed of grain,
lot five two-thirds of this amount and
lot six one-third of the quantity.

In the heavier lots seven, eight and
nine are fed to capacity on oat silage,
with hay seven on a full feed of grain,
lot eight on a two-thirds grain ration,
lot nine on a one-third feed of grain.
Each lot is allowed what prairie hay
they want, regulated as mentioned in
the sunflower groups.

Lot 10 is fed to capacity on a stand-
ard ration of prairie hay and grain,
and will serve as a check lot on the
silage group.
At the close of the feeding period
each lot will be valued separately to
determine the returns from the differ-
ent feeds and methods of feeding.
Then the two best steers from each
group will be sold as one car load,
the two medium type feeders as the
second grade car load, and the two
poorest steers from each lot the car
load of poorest type feeders. Though
no more than two steers in each car
load will have been fed the same, yet
the twenty steers of each quality will
have been fed and handled exactly as
were the other two grades.
Results, which will not be available
until late in April, will be of interest
to the cattle feeders of this country.

PRAIRIE SCRIBE
IN CALIFORNIA

A COWBOY ON PROHIBITION

I beg your pardon, Mr. Sheriff,
but I'm paintin' up this town,
And when I go on up this side,
You had better not come down;
I long to see them run once more,
And see them all turn pale,
And when I've taken in this burg,
I'm goin' to hit the trail.
Prohibition has come westward
And it's come to stay,
That's why I'm on a farewell tour,
And now I'll fade away.

There's a gospel tent astandin'
Out on the ranch today,
And a meek sheep pilot teachin'
All the cowboys how to pray;
The ranch rules will not let us
Cuss a pony nor a cow,
And they're singing hallelujah
Out on the range right now.
So there are clergies in Frisco,
And my heart it chills and numbs,
But I won't be here to witness it,
When prohibition comes.

There's no saloon in any more,
But just a nice cafe,
With waiters and an orchestra
To tune the time away;
And down around corner tables
Through straws snuff fumagin';
I gazed in on that awful sight,
And knew I was due to fade,
And when I called for whiskey
They gave me some grape punch;
I knew again that it was fate
Was givin' me a lurch.

This is the last time, mister,
I'll be here in riding boots,
And when I've taken in this town
I'm goin' to shoot the clutes.
They are having prayers out on the
ranch.
Before they go to bed,
And scatter temperance tracts about,

When your grocer recom-
mends Red Rose Tea you
will know he wants you to
have the best because he
makes less profit on Red
Rose than on other tea. He
knows it is the best quality.

MILLET

Great preparations are being made for the grand masquerade ball that is to take place under the auspices of the agricultural society on the 17th of March, St. Patrick's night.

The basket ball games and exhibition match between Millet and Bawlf was attended by a very fair sized crowd. The Bawlf team did not arrive in Millet until the eleven o'clock train. The game was called directly on their arrival, and was fast and furious, resulting in favor of Bawlf, 26-20. The basket ball fans rooted until they were hoarse. After the game dancing was kept up till the early hours of the morning.

Raymond Young, ledger keeper at the Imperial Bank, has been transferred to Greencourt.

The Women's Institute held a very enjoyable entertainment on Thursday last in aid of the Rest Room. It was a pity that the weather was considerably below zero, as it stopped a large number of people from coming to town from the country and from enjoying a very pleasing entertainment that was presented by the Blue Bird Players from Edmonton.

Max Browning met with a very bad accident while his team ran away last Thursday. His hand was badly crushed. Latest reports are that he is doing well.

Then Scherl and wife have just returned from their honeymoon.

Mrs. English has been spending a few days in Edmonton.

The U.F.A. are having a large meeting on Saturday night at the hall. Every farmer, whether he belongs to the U.F.A. or not, is requested to be in attendance, and also every farmer's wife, sons and daughters. Mr. W. Mulvane is giving a very interesting lecture on the co-operative marketing of live stock, from the farm to the market, illustrated by moving pictures. This film has been a source of wonderment wherever shown, and should not be missed by the farmers of the Millet district. The U.F.A. extend a hearty welcome to all, and one of the good points about it is that admission is free.

O. Hankin was in Millet Monday shaking hands with old friends.

C. W. Charlson, district agent for the Delco Light, paid a visit to Millet Monday.

The ladies of the agricultural society will serve supper at the masquerade dance Thursday night.

George Telford will soon be leaving the Millet district, having taken up a farm at Hatzman.

Olden Scott is busy building on his quarter near town, and will move on the farm when the buildings are complete.

Mrs. Reop was appointed a delegate to attend the convention at Wetaskiwin, and if unable to go, the president was named to take her place.

It was decided that meetings be called for 2 p.m. instead of noon.

A campaign was launched to secure more members for the W.I., and the elected captain, Mrs. Pacey and Mrs. Dowdell, soon had their teams chosen and a good natured rivalry was begun, all entering enthusiastically into the campaign.

Two months was the time given the competitors, and a penalty was imposed on the losing team, of having to serve supper to the winners, the new members and the should-be members (if any are left), this supper to be given in the new Rest Room, thus dedicating it.

At the close of the meeting afternoon tea was served by the hostesses.

Mr. A. Cummins of Millhurst, after a somewhat prolonged illness, expected "across" over the river on Monday, Mar. 15th, at the ripe age of 75 years, leaving a wide circle of relatives and friends to mourn his decease. The funeral services will be conducted by Rev. I. N. Huchison, pastor at Millet, and Evangelist Joseph Tobolsky, who is assisting the pastor in special services at Millet. The remains will be interred on Thursday at 2 p.m. at the Wetaskiwin cemetery. The deepest sympathy is extended to the bereaved ones by the many friends who have been so kind to send them have charge of the undertaking arrangements.

MILLET WOMEN'S INSTITUTE

The Millet W. I. met March 9th at the home of Mrs. H. Phillips. A beautiful dinner was served by the hostesses, assisted by Mesdames Puritt, Wright and Reop.

Owing to the unusually large number to be served, the meeting was somewhat later than usual, and the sewing for the day had to be postponed.

A very interesting and profitable study of the W. I. Act took place, and the many questions and lively discussion made the meeting very helpful and interesting to all.

Nathan Howes, who has been sales manager for the U.F.A. store here, has accepted a position as manager for the W. Phillips store in Strathmore. Mr. Howes has the honor of being the promoter of the U.F.A. co-operative store, and has done much to build up the present flourishing trade. Good luck, Nathan. We shall always be glad to see you among us.

Mr. Jasper Holt, our congenial friend, who has just recently come into the city, has taken over the management of the U.F.A. co-operative store, and with his ever-ready smile is forging his way to the top of the ladder.

Geo. McAfee, our one-time dryman, is again visiting us. He informs us that he has made a good deal at New Norway, and has decided that if he cannot start a business again here, no other place in the world will do except the "Roses" state of Oregon. You're a mover, George!

MILLET SUNDAY SERVICES

Sunday, March 29, 1921

Porto Bello—11 a.m.

West Liberty—3:30 p.m.

Millet—5:30 p.m.

Song—"After the Revival—What?"

Special singing. Everybody welcome.

On Saturday night the pastor will give an illustrated lecture at the Porto Bello school. An offering will be taken for the lantern fund.

On Sunday night, April 10th, Rev. A. L. Shindler, Presbyterian minister of Lethbridge, will preach the educational and independent anniversary services on the Millet circuit at Larch Tree, Hildale and Millet.

I. N. Huchison, Pastor.

CITY OF WETASKIWIN

DOG LICENSES

Warning is hereby given to all owners of dogs in the city to procure their dog licenses at once, as all dogs without tags found in the city on and after March 21st, 1921, will be impounded.

Elmo Eastbrook 64.
Howard Gray 61.
Lucy Ricketts 58.
Freddie Menard 77.
Evelyn Blades 76.
Emil Skoye 69.

Grade IV:
Irene Ricketts 54.
Gordon Wolf 73.
Earl Elder 70.
Mary Smith 62.
Ralph Van Voorhis 51.

MILLET CHURCH NOTES

Brilliant services are being conducted at Edmonton, with the leadership of Mr. Joseph Robinson, the first Evangelist, whose earnest, thoughtful and fearless messages have won the admiration, confidence and esteem of all the citizens here. His own experiences, his years upon the vine of the dance hall and the gambling den, that have their origin in the city of sin, are convincing and reveal a strong personality behind the message.

You would not think of sticking your hand into the fire, for fear of certain consequences of burning, and yet how many will play with the flame of sinful pleasures until character is scorched and ruined. His presence, that of the angel, whose presence is a refreshing breeze. He will be with us until Friday night. Do not miss this night of all nights.

We invite our friends from Wetaskiwin.

L. N. Hughson, Pastor.

DOREENLEE

A pretty wedding took place at Little Rock Tuesday, when the Rev. E. Simons united in marriage Miss Florence Gilkison and Mr. Timothy Willows of Doreenlee. The bride, who was attired in white crepe de chene with tulle veil and carried a bouquet of roses, was attended by Miss Esther Willows, who were a pretty bedecked gown of pale pink. Mr. Floyd Gilkison, twin brother of the bride, was best man. After the ceremony, which took place at 8 p.m., the party sat down to a wedding dinner. Among those present were: Mr. and Mrs. W. H. Simons, grandparents of the groom; Mr. Willows, Mr. and Mrs. A. Nugent, Mr. and Mrs. H. Hunter, Misses Willows, Tiffany, Ringwall, Messrs. Ringwall, Hagg, Tiffany and Willows. Later Mr. and Mrs. Willows left on a honeymoon trip. Upon their return they will live in the Doreenlee district.

bay mare 6 yrs, 1150; gelding 9 yrs, 1000; black mare 4 yrs, 1300; brown mare 3 yrs, 1300; black gelding 6 yrs, 1250; 2-year-old filly; yearling filly.

CATTLE—11 head of milch cows, 1 fresh, balance to calve early; 2 heifers rising, 3 in calf; better, 2 yrs, in calf; grade Hereford bull rising; 12 head rising; 1 yr old.

PIGS—6 sows, all bred, Duro Jerseys.

30 chickens.

MACHINERY—Deering binder, 4 ft, good as new; McCormick rake; McCormick mower; 17-shoe steel drill; 14-in. gang plow; walking plow, 3 sec. Diamond harrow; hay swing; hay rack; 2 wagons and boxes complete; buggy; set of bolt sleds, good as new; cutter; 2 sets harness.

PHEASANT—15 one year old; 15 one year old; 600 bushels seed oats.

HOUSEHOLD EFFECTS—Kitchen range, no oilburner; dining table, extension; 12 chairs; 2 beds; 2 double beds; 2 dressers; washstand; large rug; linen closet; 6 gal. churn; 15 De Laval cream separator, new; washing machine and wringer; cream cans, forks, shovels and other articles too numerous to mention.

TERMS—All sums of \$25.00 and under, cash; over that amount 9 months' credit will be given on furnishing approved joint notes bearing interest at 5 per cent. 5 per cent discount for cash on credit amounts. Strangers please bring bank references.

52-21

EXAMINER'S REVIEW OF THE MARKETS

CATTLE—Though a few choice steers made \$5.00 at Edmonton, the market is not active, and steers, except tops, are lower, and a few cows. Choice steers \$7.00 to \$8.00; butchers \$6.00 to \$6.50; medium \$5.00 to \$5.50; common \$4.00 to \$4.50. Choice cows \$5.50 to \$6.75; butchers \$4.50 to \$5.50; common and canners \$2.00 to \$3.50. There is good buying in stocker and feeder steers, with the latter \$5.50 to \$6.50; stockers \$4.00 to \$5.50. Stocker heifers unchanged, \$4.00 to \$4.50.

HOGS—Hogs have been selling a little higher in Edmonton, with sales towards the last of the week up to \$14.00.

SHEEP—There is a slow movement in sheep at Edmonton, and lambs would sell around \$11.00, and yearlings would sell up to \$6.00.

GRAIN—Prices have been holding fairly steady, further the week, and though there was a report of heavy wheat stocks in the hands of the U.S. farmers issued by the government, the break did not affect the market as much as might have been expected. There was a little break but there was a reaction, and how long it will last will depend to a great extent on the quantity of export business which can be worked. Alberta farmers have made a start on their farming operations, but have been interrupted by a splendid fall of snow which will make it impossible to get out and do all kinds of work.

PRODUCE—Edmonton crockeries are finding difficulty in selling all the orders, and butter and cream prices are coming down. Storage stocks will be cleared up, price to country purchasers, a few cents in city business. Cream receipts are not increasing, and yet this season expected. Edmononton prices were down to 21.50 on March days, and market looked weak. Cheese market firm. No encouragement in dairy butter outlook, and country production is being discouraged. Demand on poultry very good at Edmonton, with stags springing sold at 25c; well bred old roosters 17c; and turkeys 25c.

Miscellaneous

DRESSMAKING—Suits and Coats altered, garments turned, furs refitted. Mrs. Andrew, Leonard St. 52-21

Machinery for Sale

I have, sold my farm, and am now selling my machinery by private sale. If you are looking for a snap on any of the following, call and see me at McArthur, Merner & Co's warehouse, or phone 21:

WHOOPING COUGH

Ner 3 Children Had It.

This disease begins like a simple cold in the head that rapidly goes to the chest. The cough is at first short and sharp, but gradually increases in severity and occurs in sudden spasms.

Often vomiting follows a severe attack of coughing, and sometimes there is nose-bleed.

Mothers should never neglect the treatment of whooping cough, for it is much more serious than most people think, as it may be followed by some grave lung trouble, with its possible pneumonia or consumption, since the sufferer's power of resistance is often greatly weakened by the violent and exhausting cough.

On the first sign of a "whoop," Dr. Wood's Norway Pine Syrup should be administered as it helps to clear the bronchial tubes of the collected mucus and phlegm.

Mrs. Burton Leopold, New Ross, N.S., writes:—My three children had the whooping cough as had last winter. I thought they would choke. I tried many different remedies, but none of them seemed to help. At last I got a bottle of Dr. Wood's Norway Pine Syrup, and I was greatly surprised to see how quickly it helped them. I shall always recommend your wonderful remedy to others.

Dr. Wood's Norway Pine Syrup is 25¢ and one a bottle at all drug stores and dealers. Put up only by The T. McBurn Co. Limited, Toronto, Ont.

SASK. TAX PAYERS

GET HOME PAPERS

A unique experiment in municipal publicity is being tried out in a number of Saskatchewan rural municipalities. A problem with a good many municipal councils was the lamentable lack of knowledge of municipal affairs which was retarding the progress of the community, and this notwithstanding all the efforts put forth by the government, the municipal association, the school and the press. The doings of the council appeared regularly in the local weekly press, its news, of course, and without charge, but the very taxpayers must in need of the information given did not get it, for the reason that they are in that class who do not read the newspapers—happily a class that is growing less numerous, but is still numerous enough. To overcome this misfortune in certain municipalities the councils have decided to subscribe for the local weekly paper that serves them for every taxpayer in the municipality; and charge the expenditure up to the taxpayer. This is a radical innovation, which will be watched with a great deal of interest.

The experiment is not the result of newspaper salesmanship, nor did the idea originate with the weekly press. It was the latest municipality to venture into the experiment, with the weekly paper as the medium. The idea, it is true, has been given an impetus by the failure of many other local newspapers to survive the stress-

ROYAL YEAST is now made in square cakes.

The number of cakes in a package has been reduced from six to five, but the five square cakes are equal in quantity to the six round cakes.

Each cake is wrapped in wax paper, insuring perfect keeping qualities.

TOOK 395 SHELLS TO KILL ONE MAN

Paris—Artillery is such an expensive way of killing that no one but a multi-millionaire can ever possibly hope to enjoy this means of getting rid of their enemies.

This at least is the conclusion justified by the report just filed with the French Academy of Medicine on how many shells it took to kill a man during the war.

The statistics filed are based on the number of shells fired by the Germans on a front occupied by three French armies during the five months of 1917. This was at a time when the German artillery had reached its maximum and the averages attained are considered as thoroughly typical of the death-dealing possibilities of artillery at the moment when the war closed.

On the front mentioned above and during the period of time covered, the Germans fired 2,600,000 shells. These killed 13,250 French soldiers and wounded 55,415.

As a consequence the result is established that it requires 75 shells to wound a man and 255 to kill one.

Other statistics kept by individual artillery officers in limited sectors demonstrated that often the average number of shells required to kill a man was 300.

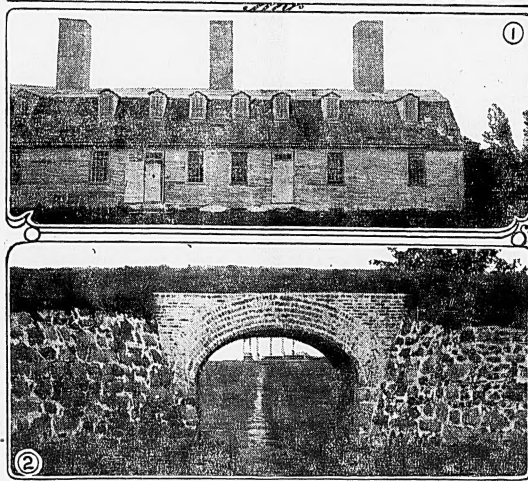

NEARLY 16,000 BABIES BORN IN ALBERTA IN 1920

According to a preliminary report just received, the births in Alberta during 1920 were 15,861, as against 14,120 the previous year. It is expected that the final total will reach the 16,000 mark; all the reports from the country are not yet in. The previous record for births was in 1915, when the total was 14,830. The increase over the whole province for one year was approximately 12 per cent.

Calgary and Edmonton both show a striking increase. There were 2,255 births registered in Calgary, an increase of 19 per cent, and in Edmonton 2,265, an increase of 23 per cent.

The number of marriages recorded was 5,054, as against 4,715 for the whole of the previous year, and about

Historical Events in Nova Scotia

(1) The Officer Quarters at Fort Anne, Annapolis Royal, Nova Scotia. This is now a museum where many interesting historical relics are kept.

(2) Fort Anne is divided into two sections: this is the connecting archway. The Nova Scotia Historical Society and its offshoot, the Historical Association of Annapolis Royal are making combined efforts to bring about a fitting commemoration of three interesting historic events this year at Annapolis Royal, the ancient capital of the province. In 1901 the tercentenary of the founding of Fort Anne, stands as a permanent memorial of that occasion.

Now it is proposed to celebrate and erect a memorial of the tercentenary of the birth of the Province. It was in 1613, the country then being claimed by the British by virtue of the conquest of Acadia in 1613, that James I. of England, V. of Scotland, granted to Sir William Alexander (afterwards Earl of Stirling), a charter to make of this territory a New Scotland in America, that as there was a New England

ing by one the previous record of 1912. The deaths recorded number 5,500, compared with 5,507 in 1919, or practically the same as last year.

Three Cents An Acre Highest Tax Necessary To Operate Any Municipal Hospital In Alberta

Edmonton, Mar. 8.—Three cents per acre will be the highest tax rate necessary to operate any of the municipal hospitals in Alberta next year, says Mr. A. K. Whitson, secretary of municipal hospitals, in the department of health. The experience of the past year proves that this is quite adequate to meet the entire cost above the flat rate of one dollar per day charged to patients who are residents of the district.

The success and popularity of the Municipal Hospital Act is evident from the detailed reports submitted of the various hospitals, in the annual report of the secretary, tabled by Hon. C. R. Mitchell, minister of health, in the legislature Monday.

During the year four municipal hospital districts were established, namely, Calgary, Pincher Creek, High River and Provost districts.

Schemes were prepared and submitted to the ratepayers for ratification in the Viking, Pincher Creek and High River and Provost districts. The schemes were ratified by the ratepayers up to the end of this year provide for 196 hospital beds.

During the year, eight municipal hospitals were in operation, five for the full year and three for the greater portion of the year.

The summary of hospital services shows that 2,429 patients were admitted to the hospitals.

Number of hospital days 29,855
Average number of days patient received treatment in the hospital

Mortality cases 15
Major operations 446
Minor operations 424

It is of particular interest to the ratepayers of the province, more particularly the ratepayers within the boundaries of the municipal hospital districts now operating, to learn that the records show no material deaths at any of the institutions.

The loyalty and support of the ratepayers to the municipal hospitals is clearly apparent and in the case of the Nonville and Onaway hospitals, the accommodation has proven insufficient to meet the needs of the district.

It is very apparent that the patronage of a municipal hospital is, at the outset, guaranteed. First, because of the fact that the ratepayers of the district are usually by taxation paying towards the maintenance and upkeep of the institution, and secondly, because a municipal hospital, which is an institution efficiently equipped and staffed, offers to the ratepayers of the district the maximum of service at a minimum of cost.

The method of financing municipal hospitals is unique. Possibly one of the main factors is that the hospital is guaranteed sufficient revenue by taxation to take care of the maintenance of operation and capital charges of the institution. The municipal hospital boards are to be congratulated upon the successful manner in which they have conducted the affairs of the institutions, and it is exceedingly gratifying to note that in all the municipal hospitals of the province, the professional staff is of the highest standard. In this connection it is of interest to note that a member of the staff in one of the institutions has recently been awarded the scholarship from the Alberta Association of Graduate Nurses.

The department records appreciation of the co-operation, loyalty and support of the superintendents and members of the staffs of the municipal hospitals, and the success that has been attained in the institutions now operating can only be due to the incentive to the institutions to be created this year.

The success of the municipal hospitals now in operation has exceeded the most ardent hopes of the supporters of the municipal hospitals movement in the province.

The audited financial statements of the past year are not available at this time, but the department is not aware of the necessity to increase either the rate of taxation of the district, or for patients in any of the institutions.

The program of this department for the current year would include the completion of the work in the four Calgary hospital district and two or possibly three of the portion of the province tributary to Leduc, Wetaskiwin, Ponchar, Lacombe, Deer, Rocky Mountain House, Estevan, Delburne, Camrose, Stettin, Big Valley and Vermer.

If over this territory is established into municipal hospital districts, the schemes as prepared by the respective boards are ratified by the ratepayers, it will be found that approximately two-fifths of the province south of Peace River will be provided

with municipal hospital accommodation.

This department has endeavored as far as possible to comply with requests for speakers, and in addition to the meetings in the territory where a private organization has been undertaken meetings have been addressed in many other parts of the province.

This department has endeavored to co-operate with the Women's Institutes, the U.F.A. and the U.F.W.A., and speakers have been provided to address meetings under the control of these respective organizations.

This department has constantly endeavored to thoroughly and impartially investigate territory which it was proposed to establish as a municipal hospital district. The officials of the department are instructed to carefully explain to the ratepayers of a proposed district the necessity of making a district as large as possible, having regard to the necessity for the assurance of sufficient revenue to fully operate and maintain the institution, which erected without unduly burdening the ratepayers by taxation.

It is clearly apparent, and the fact should be borne in mind by those who are enthusiastic with regard to the establishing of municipal hospital districts, that the institutions cost considerably more to build and operate, and it is not possible nor advisable to create a small district where the tax would be in excess of that prevailing in any other municipal hospital district. The outcome would only be that the ratepayers would become dissatisfied and likely to the institution would be a burden to the district which the district had been created by ratepayers and because of dissatisfaction among the ratepayers would not be having sufficient service.

So long as municipal hospital districts can be established, in which the hospital building and the services are of a high standard, the board capable, enthusiastic and energetic, exercising economy without stinting of efficiency and the consent of a capable professional staff, it would appear that the success of the municipal hospital movement of this province is assured.

WHAT IS A MAN WORTH?

SOMETIMES BRAWN SCORES OVER
ER BRAINS

Is Charlie Chaplin worth more than Mr. Lloyd George?

It is a question of each man for his own job, as you may say. The Prime Minister, as a moving picture actor, might not be worth a couple of dollars a week; Charlie as a Prime Minister would almost certainly maintain the country into a hopeless muddle in a week.

For controlling the destinies of the British Empire, with its four hundred and fifty million people, the premier gets about \$25,000 a year. Charlie Chaplin gets fifty times that amount for making people laugh!

Mary Pickford and Douglas Fairbanks have each earned \$500,000 a year. Mary's income being worth as much as the combined wages of one thousand women workers in industry.

Pity the Person!

The most extraordinary contrast, however, are those between the wages of the industrial and professional classes. A sewerage gets about \$12.50 a week in some of the English cities. Hundreds of clerks, after having had from \$1,000 to \$1,500 spent on their education, get less than \$15 a week.

A bricklayer receives a minimum of \$30.75 a week; a teacher a little over \$15, and nothing for overtime. A coal-miner, with his knowledge of French and German or Swedish and typewriting, will be offered \$12.50 a week, but you must pay a street car ticket. (A.G.S. there being the minimum wage agreed upon between union and house in the Old Country).

As for the little Jimmy who sells well known at about \$25.00, while two hundred British soldiers are paid between them less than that. Just Deserts will come in his one cent with this Corporation.

Friedland steel workers are receiving up to \$150 a week. For this salary (says a writer in "Pearson's Magazine") Great Britain gets the following men to work for her: A London magistrate, the head of the Criminal Investigation Department, the first son of Admiral Beatty, the Assistant Postmaster-General, or the acting head of the Royal Mint!

To sum up, the manual laborer is on the average, being paid more for his work than the brain worker, the first fact being that what a man is worth is just what he can get. No more and no less.

MRS ALICE GRESHAM DODD, mother of first American soldier killed in France, who gives entire credit for recovery of her health to the well-known medicine, Tanale.

The following remarkable statement was made by Mrs. Alice Gresham Dodd, the mother of Corporal Joe R. Crochran, who was the first American soldier killed in France. The statement was made at the Gresham Memorial Home, which was presented to her by the patriotic people of Indiana as an evidence of their appreciation of the services rendered to his country by her son.

The shock of her son's death resulted in a serious breakdown in Mrs. Dodd's health, but every one will learn with interest and pleasure that she is now in splendid health again. Mrs. Dodd gives the entire credit for her recovery to the celebrated medicine, Tanale.

She said: "After my dear boy's death I had a general breakdown in health. At first it was just indigestion. My food would upset me, and I had to diet myself very carefully. I also had rheumatism with severe pains in my shoulders, back and arms, and at times and at times I would suffer greatly, and my joints would become swollen and stiff. I was hardly able to do but very little about the house and at times could not even cook a meal. I became very nervous and restless, and at night would be awake for hours."

"A friend of mine advised me to try Tanale. I am glad I did, for it proved to be the best medicine I have ever taken. It soon gave me a splendid appetite and relieved me entirely of indigestion. My rheumatism also disappeared and I am able to do my house work with the greatest ease. My nerves are steady and strong. I sleep well at night and my health is better than in years. I shall always be grateful for what Tanale has done for me."

Tanale is sold in Wetaskiwin by the Northern Drug Company.

Terrible Sufferer From Her Kidneys.

When the kidneys get out of order the back is sure to become ached, and dull pains, sharp pains, quick twinges all point to the fact that the kidneys need attention.

Painkillers and liniments may relieve for a short time but to get rid of these pains you must get right at the seat of the trouble. You can do this by using Doan's Kidney Pills and thus obtain permanent relief.

Mrs. John Stephenson, 115 Stephen St., Kingston, Ont., writes:—"I certainly must praise your Doan's Kidney Pills. I was a terrible sufferer from my kidneys. I would have severe pains in my back and awful headaches. I became very weak, and just felt as if I were being dragged down. I tried one box of Doan's Kidney Pills, and to my surprise I felt better. I could work hard all day, and my back would not pain me at all. I can't praise them too much."

Doan's Kidney Pills are 50c. per box at all dealers, or mailed direct on receipt of price by The T. Millers Co., Limited, Toronto, Ont.

THE CALGARY KIDDIES COMING TO WETASK.

Under the direction of Mrs. A. McDonald of the McDonald School of Dancing and Physical Education, Calgary, a company of seven children, ranging in age from four to twelve years, will be at the Wilson Theatre, Friday, April 1st. These children are well known in Calgary, having had the honor of entertaining the Prince of Wales, the Governor General of Canada, and the Imperial Press delegates.

These children are taking advantage of the Easter holidays by playing the different towns on the C.P.R. during Easter week.

The following is a report from Lay-cumbe, where they played Christmas week:

"The versatility of these children is marvellous, and robust great credit upon Mrs. McDonald, their manager and instructor. The costumes were very beautiful, and the representations of the different nations were perfect. The children possess wonderful voices, and each and every one of their songs was applauded to the echo. The dancing also was a treat, and it is not often that Lacombe has the opportunity of witnessing such beautiful dancing as was exhibited last night. It is impossible for us to mention any one of the troupe, as every

one of them was an artist, and the entertainment good from start to finish. We all hope to have this talented company of children back here again in the near future."
